LAP WELDED

MANUFACTURERS OF LAP-WELDED OIL WELL

Tubing & Casing. We would eall the particular attention of fant-rs and producers to this make of Tubing and damg. One of the important features in the candiacture of our Tubing is, that the

Lap and the Weld are made perfectly straight, smooth and uniform, thereby giving equal and great strangth to the tubing throughout.

Each joint carefully inspected, reamed at end, and proved with the sockets on at a hydraulic pressure of 1,200 pounds to the square inch before

Diamond "B."

PORTER, WICKHAM & CO.

PATENT JOINT il Well Tubing.

This Superior Tubing is furnished with heavy sockets, and is cut with a vanishing screw thread, socresponding exactly with the thread in the socket, so that when screwed up it has a bearing the whole length of the joint; and the sheaper of a deep thread on the tube at the said of the socket obvistes the liability to break at that point from the vibration caused by the setting of the pump.

Each length and socket is stamped with our trade mark, and is carefully tested before shipment with a hydradic pressure of 1,300 pounds to the square inch. TITUSVILLE, -AND-

A The Election To-day.

OUR CANDIDATES.

To-day there will be held in Pennsylvania a most important election. The oyes offthe country are on this State, which at the region will render its verification will render its verification. The process of the public have been managed by a R ublican administration. The voice of Pennsylvania has always been potential in influencing the result of Presiterms Colonel Beath has acted as A. A. G.

It is impossible to estimate the lose terms colonel may be a strong than eleven the state. For more dential elections, and the election this year will be the prelimenary skirmish of the great buttle of 1872. Already the Republican victories in Maine, North Caropublican victories in Maine, North Caropublican victories in Maine, North Caropublican victories, West Virginis, Colorado, Wyoming and Delaware have inspired with new confidence all the Union forces of the nation, and a signal Republican victory in Fenneylvania would now stemp the elections of the season as the most Surveyor General of the lose are known, it will show the destruction of an immense amount of grain, last the confidence of the season as the most Surveyor General of the lose was etil regime to morth of the line of the road, and where it surveyor General by the Republican convention by 57 to 40. And the honor is much fear that where the full particulars of the lose are known, it will show the destruction of an immense amount of grain, soldier, the next Surveyor General of the lose was etil. It is impossible to estimate the lose in the G. A. R. of this state. For more than eleven was etil regime to morth of the line of the road, and where it surveyor General by the Republican convention by 57 to 40. And the honor is will be stopped cannot be told. We very much fear that where the full particulars of the lose are known, it will show the destruction of an immense amount of grain, soldier, the next Surveyor General of the lose are known, it will show the destruction of an immense amount of grain, soldier, the next Surveyor General of the lose are known, it will show the destruction of an immense amount of grain, soldier, the next Surveyor General of the lose are known. the elections of the season as the most brilliant since the war. It would give strength and confidence to Republicans everywhere, North and South; it would do more to break up the terrorism at the South than an act of congress, since it would settle finally the doon of the Demo-oratic opposition in 1872, and so teach the southern people that their only true course is to make peace with the Republicans. In sustaining the administration of President Grant, Pennsylvania sustains a policy which is doing so much to lighten our burdens, which has removed the danger of war with England, reduced our debt and taxation, is now reducing the huge load of interest, and which favors protection to American industry.

The St. Paul and Paolity road, on the feet with the strain of the street of

As regards state issues the course of ad-prairies of the west can form any ides ministration under Republican auspices what a fearful, awe-inspiring, terrific eight has been uniformly in favor of a reduction | it is to see the fire run riot over hundred has been uniformly in favor of a reduction of the popular burdens. The state debt has been heavily reduced, and this goes on steadily with each successive year. The state tax on real estate has been abolished, and the weight of taxation placed chiefly upon corporate monopolies. Under Republican management Pennsylvania became the leading railroad state of the Union, and her iron and coal interests force with every guet of wind, constantly have attained a degree of prosperity and development previously unknown. Agrihave attained a degree of prosperity and development previously unknown. Agriculture is flourishing, manufactures prospereus, mining thriving, iron shipbuilding going ahead vigorously, the export trade is good, and business generally leaund, and capital superabundant.

It is this policy in national and state affairs which the people of Pennsylvania will be called upon to endorse next Tuesday at the ballothex. And we believe development previously unknown. Agridevelopment previously unknown. Agriculture is fiourfaling, manufactures prospereus, mining thriving, iron shipbuilding going ahead vigorously, the export
trade is good, and business generally
sound, and capital superabundant.

It is this policy in national and state
affairs which the people of Pennsylvania
will be called upon to endorse next Tuesday at the ballot-box. And we believe
they will do it by muny thousands of a

hey will do it by many thousands of a coutend with the fiery monster whose projectly. majority. Let us now glance at the candidates on

so proud a fame, that the people are hon-ored in him and labor is still further dig-

tive city, to learn the trade of machine black-mithing. He worked at the anvil till the demon of rebellion broke loose.

Such a scene the residents of our state west of the "Big Woods," along the line of the St. Paul and Pacific road, have witthe Republican ticket for Auditor General and Surveyor General. the St. I'aul and Pacific road, have wit-nessed during the past two or three days. From a small beginning somewhere near the western boundary of the state, the fire spread to the "B.g Woods," 150 miles from the point of starting. In striking the woods it was not stayed in its course, but the fillings seging upon the day moder-COL. DAVID STANTON. He is the son of Dr. Benjamin Sanwas born, in 1829. Having adopted the profession of his father from choice, he graduated in medicine in 1850. He commenced the practice of his profession in the filmes seizing upon the dry under brush, and from thence to the tall trees of New Brighton, Beaver county, Pennsylvania. It speaks well for him, that this, the forest, it extended its line for fiftee miles in the heavy timber, until it reache his first choice of a home, should romain his permanent recidence. His only absence from New Brighton has been when he was away four and a half years employed professionally in the service of his country. Colonel Stanton was appointed a surgeon of the First Regiment of Pennsylvania Cavalry in August, 1861, and served from that time up to January. 1860, in caring for the sick and wounded of the vallant Union armies. He served his first choice of a home, should romain 1866, in caring for the sick and wounded of the gallant Union armies. He served with the army of the Potomac, and in November, 1862, he was appointed by President Lincoln a Surgeon of United States Volunteers, and was ordered to Columbus, Ohio, invested with the authority of Superintendent of Hospitals and Assistant Moderal Director of the grain and hay-stacks, the r-corn-fields, fences, and, in some instances we have heard, the rude home and scenty household goods of the settler, all fell a prey the insatiate monster. The terror-stricke people flad, leaving all their worldly pos-ressions by behind, thankful to escape with their lives. On Saturday morning the flames began to approach the line of the St. Paul and Pacific read at different points. But few supposed the danger to be so serious or so imminent, and delayed too long the means Northern Department. In this position, which he held two years, he occupied a prominent place on the staff of General Heintzelman. He was ordered from thence to Cinciunati, Onic, and artached to the staff of General Hooker. While there he was appointed a member of the Army Medical Board for the examination of candidates for the position of surgeon and assistant surgeon. Shortly

by which they could have warded off at least a portion of the damage. Such was the case with the mon in charge of De Graff & Co.'s werehouse, at the terminus of the iron on the St. Paul and Pacific or the from on the St. Fain and Facine road, some twenty miles this side of Breckinridge. They supposed there was no danger, as the buildings were situated on the opposite side of the railroad track, and the firmes would have to make a leap thereafter he was ordered to assume the Acting Medical Directorship of the Northern Department with his headquarters at Detroit. In 1865 the Government brevet-ed hun Lieutenant Colonel, for long, faithof some forty feet to reach them. They did not calculate upon the force of the coming whichwind of fire, and the buildal and meritorious services, and when in 866 he was mustered out of service, Brevet-Colonelcy was awarded him. It has been said of him that he was merely ings, together with all their contents, fell an easy prey to the flames.

Leaping the road (and at different points setting fire to the tice), the flames "a contract surgeon" in the army, appointed by his relative, E M. Stanton, Secretary of War. He was not a contract sur tary of War. He was not a contract surgeon and he was not appointed by Edwin
M. Stanton, Secretary of War. That gentleman did not enter Mr. Lincoln's cabinot
for six months after Dr. Stanton was on
duty with the Army of the Potomac. Dr.
Stanton received his commission as surgeon from Gov. Curtin in August, 1801
For his ability and fidelity he was commissioned Colonel, and he has worn his ped on ward with the fleetness of the wind The passenger train that left here on Saturday morning for Morris arrived safely at the station, although the employes and passengers on the train were almost suffo-cated with the smoke and heat, and when it reached Morris the cars were fitled with the cinders and ashes of the prairie grase The whole country for miles and miles was covered with a dense volume of emoke, and the sir was filled with the dying emmissioned Colonel, and he has worn his missioned Colouct, and he has worn its
honors modestly, honors which were
well earned and gracefully bestowed.
The state proposes to reward him
by making him Auditor General. The state proposes to reward him by making him Auditor General.

THE CHICAGO FIRE.

50,000 PEOPLE HOUSE LE33.

NO HOPE; FOR THE CITY.

The Fire Covers Thirty-three

Squares in Length and Thirteen in Breadth.

Over on the west side commences of the commences at Taylor street, running from Dekover to Jefferson, thence four of five blocks north and then moved diagonally towards the river, and finally the west line was is in ashes, from Harrison street north to the private and reaching to the private and moved in this tensor to vive street and moved in this Thirteen in Brendth.

is in ashes, from Harrison street north to Chicago avenue, and east of the river to Lake avenue, three miles in length and a mile to a mile and a half in width. Every hotel, bank, express, telegraph, and newspaper office, together with many thousand dwellings, with the water works were destroyed early this morning.

The passenger and freight depots were in this territory. Both passenger and freight depots were in this territory.

were destroyed early this morning.

The wind is blowing a perfect gale from the southwest, with a sky of brass. No one can tell what the end will be. The only salvation for the remainder of the city is in the wind keeping its present direction. Fifty thousand people are homeless. Most of them are in a destitute condition.

The physical extract for miles are lined. This statement embraces the districts and are wiped out. Almost the entire northern division from the main branch and Chicago river to Lincoln Park, nearly two miles in length and one mile wide, is completely destroyed, including the water works, a large number of elegant otherches, etc.

Firemen are on the way here from Cininnati, St. Louis and other cities. The water works are entirely destroyed. They are now blowing up buildings on he line of the fire to attempt to arrest the rogress of the tlames.

It is now believed the spread of the fire as been stopped at Harrison etreet, but in the north side there is no diminution of ite fury, and that entire division of the north branch of the river, and the streets nearest the river are pointed to raise money and previsions for ments are makin reader safety.

of a prairie fire, and many must have perished.

The Western Union Telegraph has anceceded in getting up a few wires from a hastily improvised office in the sonthern part of the city, establishing communication in nearly all directions. Munificent offers of assistance are coming from every inarter.

[EVENING REPORT]

CHICAGO, Oct. D.

The awful work of destruction goes on with relamitees fary from Harrison street, south, to Division street, north, and from the river to the lake, an area of four miles long by one wide, the flames have swept tyreything before them. It is estimated that at least one hundred thousand people who have seed that at least one hundred thousand people who have seed ped from these with people who have escaped from these with people who have escaped from the sible as yet to tell the number or extent of the risks in New York offices. While and harrowing. The sight is truly pitful as to suspend. The immediate result here is a timidity among those who have money to lend, based upon expectations. The immediate result here is a timidity among those who have money to lend, based upon expectations. The immediate result here is a timidity among those will be compelled to call in all their available assers, and readily convertible in the districts still unburned. the river to the lake, an area of four miles have swept long by one wide, the flames have swept worything before them. It is estimated that at least one hundred thousand people are homeless, and in a suffaring condition. The streets in the districts still unburned are lined for miles with such honeshold goods as have been saved from destruction.

Most generous offers of assistance, in noney, food, or anything wasted, is comnig from every city and town possible to make an uncondition. The streets in the districts still unburned from the insurance.

Gen. Sheridan has to-Jay telegraphed to St. Louis to the Missouri department there to send at once to Chicago 100,000 nounced the struggles of desperate men to save at least a little from their wrecked for two companies of a regiment of soldiers and one hundred tents. They will be all here as soon as they can reach by telegraph. The mayor has responded to several offers, asking that sooked food be forwarded as soon as possible.

Mayor Mason has issued a proclamation to lead upon expectations. The latter to the important of the interest scanner in the section of this amount can be realized to eat in all their available assers, and realize on eccurities that are readily converting the interest on the districts at little from the insurance.

Gen. Sheridan has to-Jay telegraphed to St. Louis to the Missouri department to ease at least a little from their wrecked for two companies of a regiment of soldiers and one hundred tents. They will be all here as soon as they can reach by the mortal fear and reacked by anguish, such as one may well wish never to see a second time, greated one on every side the scene was fearfully interesting and exciting. To a stranger it would have seemed an assemble of well-drawed have seemed an assemble of well-drawed have seemed an assemble of a problem to the surface of the middle of the major the second in the surface of the major the second as the found of the major the second in the surface of the middle of the major that the second is a sec Mayor Mason has issued a proplamation and exciting. To a stranger it would calling a meeting to-night in the west have seemed an assemblage of well-dressed division to see what the citizens can do for men who were all insane. Many a broker the relief of the sufferers, and there are at whose fortune was rapidly slipping from least 100,000 people who know not where his grasp without having the power to to get even rough provisions to satisfy the stay it, was temporarily mad, and with cravings of hunger. A later rumor from good reason. Such a scene has not been the north division says the devastation is witnessed since the famous break in Rock

Island last summer. A meeting of the chamber of commerce has been called for Tuesday noon to afford an opposituaity for the merchants of this city to contribute relief for the sufferers n the north side there is no diminution if its fury, and that entire division of the ity is evidently doomed to utter destruction, and there are grave fears that the sufference in an any spread to the west side of the sufference orthogonal orth branch of the river, and the inhabition of the river are contributed and commissioners appointed to raise money and provisions for ments are making a relief meeting of gottern and the sufference of the sufference or the sufference of the sufference of the sufference of the sufference of the sufference or the sufference of the sufference or the sufference of the sufference of the sufference or the sufference of t ments are making a relief meeting of cit-izens. The call for the meeting will be

ANOTHER

Valuable Invention FOR GI WELLS.

CATES' PATENT

Which entirely prevents the ingress of air into oil weils while the tubing is being drawn.

New York Bazaar

It is a well-known fact to oil well operators that upon wells where gas pumps are used, it is pecensary to preserve as nearly a per set vacuum a possible, and that no air stoud be let into the weil at any time a hear it can possibly be avoiled; as possible, and that no air stoud by let into the weil at any time - hen it can pussibly be avoided; consequently whenever the tubing is drawn from a well, it is the cause of great injury to it, as the stuffing box being then necessarily opened, the sir immediately rust as buck between the tubing and casing into the well, going into the oil rock and gas veins, and consequently causing the oil and gas to rush back to agree; distance. It almost siways takes several days after pumping is resumed for a well to be brought "ask to its former condition, and oftentimes it takes several weeks, and quite frequently wells have been almost completely ruined by the air being thus let in while drawing tubing.

The Back Suction Presentive is attached to the stuffing box, and "arks in seals a way that it ompletely shuts up the space between the stuffing box and tubing so effectually that not a particle of six can get through at any than while the tubing is being drawn and replaced.

It amplies a want long felt, and is without question one of the most valuable inventions of the day to those engaged in the oil producing business. No well should be without one, as it offentimes saves ten times its oot by once

It is manufactured and for sale at the Foundry and Machine Thop of ANDREWS & Co.,
